Tee It Up Together

Supporting Education in Seminole County

Education is the pathway for tomorrow's future. The Foundation for Seminole County Public Schools and the Foundation for Seminole State College raise nearly \$8 million annually to support education efforts in our community. This would not be possible without the support of local businesses and individuals. With the continuous change and innovation that came from the past year, it was time to come together as a community and show a great push for education! Priorities from each foundation expand throughout the community and across disciplines, including removing barriers to learning, improving student performance, investing in our educators, and providing the best learning experiences.
